As a Fresh Graduate of Batam Institute of Technology majoring in Computer Engineering, I specialize in web development, especially backend programming. I have strong skills in frameworks such as ExpressJS and ReactJS, and I am passionate about delivering efficient and scalable solutions. A proactive person, A problem solver, I thrive in a collaborative, cross-functional team environment, consistently driving projects to successful completion..

Education

Batam Institute of Technology

Aug 2020 – Dec 2024

Bachelor of Computer Engineering, 3.70/4.00

- Actively participated as Computer Engineering Student Association
- Engaged in various campus events and organizations in IT support

Work Experiences

Mentor Technical Web at Infinite Learning Indonesia - Nongsa Digital Park

Aug 2023 – Dec 2024

Contract

- As a technical mentor, I taught my mentee how to create a website properly using HTML, CSS, Javascript and also with ReactJs. and I also taught my mentee about backend with ExpressJs Framework with MySql database.
- Developed a cutting-edge programming and web development curriculum tailored to current industry standards.
- Trained fresh graduates, junior developers, and mentees to enhance their skills, ensuring they become proficient Web and UI/UX Developers.
- Produced high-quality web developers from both IT and non-IT backgrounds through comprehensive training programs.
- Actively involved in various educational initiatives, including Bootcamp Frontend Web Development, Man IC Batam Students, and SMK 1 Batam Teachers training programs.
- Ensured students gain essential knowledge and skills, commit to continuous learning, and effectively convey their expertise.
- Fostered collaboration, communication, and critical thinking skills among students, empowering them to make meaningful contributions to the industry and society.

MSIB Hybrid Cloud A.I at Infinite Learning Indonesia - Nongsa Digital Park

Feb 2023 – July 2023

Mentee

- I had the privilege of participating in Infinite Learning's Certified Independent Study Learning Program, specifically the IBM Academy's Hybrid Cloud and AI program. This comprehensive program provided me with in-depth knowledge and practical skills in various areas, including the fundamentals of command-line interface (CLI) usage, bash scripting, remote system management using SSH, network configuration, and advanced networking concepts. In addition, I explored the realms of artificial intelligence (AI), cybersecurity, and Red Hat Enterprise Linux. My learning journey included mastering SELinux, managing stacked storage systems, accessing and managing network-attached storage using NFS or automounter (Autofs), and utilizing the logical volume manager (LVM). I also gained hands-on experience in container management using Podman. By the conclusion of the program, I earned two esteemed certifications: IBM AI & Cybersecurity Practitioner and Red Hat Certified System Administrator (RHCSA), further solidifying my expertise in these domains.

Certificate And Projects

- **Projects** (2023): Chatbot Implementation of IBM Watson Assistant & Watson Discovery
- **Hard Skills** (2023): Belajar Membuat Aplikasi Web dengan React
- **Hard Skills** (2023): Enterprise Design Thinking – Team Essential for AI
- **Hard Skills** (2023): Enterprise Design Thinking Practitioner
- **Hard Skills** (2023): IBM Artificial Intelligence
- **Hard Skills** (2023): RedHat Enterprise Linux
- **Hard Skills** (2023): Python for Data Science
- **Hard Skills** (2023): Red Hat Certified System Administrator
- **Hard Skills** (2024): Dasar – Dasar Pemrograman: API dan Layanan Web
- **Hard Skills** (2024): Pelatihan Esensial Javascript
- **Soft Skills** Teamwork, Problem Solving, Decision making, and Conflict Resolution.
- **Skills** Communication, Leadership, Public Speaking, and Research.
